Peoria Area Woodworker's Club Meeting
Wednesday, May 21st - 6:30 pm

The Woodworker's Shop on Manito Rd., Pekin

Program: Club members Andy Kosirog and Les Linton will present a program on their experiences with the art and craft of veneering. Expect to learn a bit about basic techniques and why we might want explore the craft further.

April 16th Meeting Notes: Our featured speaker for the evening was local woodworking artist James Pearce. Jim brought one of his signature tables and used it as a backdrop to talk about how he finds form, function and uniqueness in wood to create one-of-a-kind pieces of art and furniture. Our thanks to Jim for sharing his time and talents and we look forward to seeing more of his work in articles and exhibits such as those sponsored by the Central Illinois Artists Organization (CIAO) and the Peoria Art Guild.

Business Meeting: Treasurer, Norm Bartlett, reported that the club treasury balance on the CEFCU statement dated 04/12/14 was \$1,636.97 in savings and \$42.81 in checking and that balances with that of his record and there are no major bills outstanding.

50-50 and the Woodworker's Shop Gift Card Drawings: It proved a lucky evening for Lester Ruckle when his name was drawn as the winner of the 50-50 drawing and also for Andy Kosirig when his name was drawn for the \$35 Woodworker's Shop Gift Card.

Show & Tell:

Gene Lair: Gene brought pictures of a curio cabinet that he had talked about earlier but just finished. His 2nd accomplishment was an improvement to his shop. Then, just to show that he could appreciate the intricacies of smaller pieces, he let us see his "pro-to-type" stamp roll holder.

2014-04 April

Bill Fuerking: Bill attended an architectural carving class in Springfield, Mo. This butternut carving of a cluster of grapes was his homework assignment

Mark Padesky: Mark brought a leaf from a table he is restoring for a family hit by the Washington tornado. It's time to apply a finish but what kind of wood is it? As the table leaf passed from one to another around the room, it became clear that Mark didn't "cry wolf." The wood looked similar to several species. Eventually, the assemblage more/less reached a consensus (white oak) that at least gave Mark "cover" for having done his "due diligence" to properly identify it. Details to follow...maybe.

It was an interesting evening despite the light participation in Show & Tell. Everyone was probably saving their projects for next Wednesday's meeting.

President/Vice President – John Keen – 309-348-3950 - unkajohn@yahoo.com
Secretary/Newsletter – Dave Lawson 660-785-0899 cell - davelawson43@gmail.com
Treasurer - Norm Bartlett – 309-697-4341 - lennorm12@juno.com
Librarian – Bill Wiese – 309-635-5401 - bwiese@telstar-online.net

Classifieds

As club members, please feel free to submit an ad for a woodworking tool/related item.

The following "classifieds" might normally have pictures. Bill will have pictures of his Jet Mini-lathe at Wednesday's meeting and a separate email flyer is going out for Bruce Shiverdecker's sale in order to provide the pictures. For those without computers, that flyer will be available at the meeting Wednesday evening's meeting. If that is a problem, we can always work something out. **Dave Lawson 660-785-0899 cell - davelawson43@gmail.com**

Jet Mini-Lathe...\$150. Bill Frerking is selling his Jet Mini-Lathe. He will have pictures of it (if not the lathe itself) at Wednesday's meeting. Reason for sale...one to many lathes.

Bruce Shiverdecker's Tool Disposal Sale: A serious illness is causing Bruce to sell his woodworking tools. He has offered us a "woodworker's club sale day" at his house on Thursday, the 22nd (10:00 – 6:30). What doesn't sell there will be in a subsequent sale a bit later. Bruce intends to be available on Thursday the 22nd for questions/negotiations. In addition to what is listed below, there will be the typical spread of smaller tools/items plus pen blanks, turning blanks and some lumber.

Nova 1624-44 Lathe: Includes out rigger that allows turning up to 29" x6." Shop-built bench (for those over 6') and the regular leg set for those less vertically challenged.

Craftsman 16" scroll saw: For the beginning scroll sawyer. It is old, but has NOT been rode hard. \$50.00

10" Rikon Band Saw w/ blades. \$150.00

Craftsman 34" multi-speed Tabletop Radial Drill Press. It does horizontal boring and by moving it forward off the end of the table, about 4' of hollowing. \$180.00

Cal-Hawk Combination Disk / Belt Sander \$80.00

Jet DS1000 Dust Collector W/ Hosing and steel piping. \$200.00

Inkra 5000 Cross cut sled w/ extra non-sliding section. Very accurate cuts, angle cuts to 1/10degree. \$125.00

Black & Decker 10" Table Saw. Older but works well.100.00

Jet 8" slow speed Grinder with Wolverine sharpening system, Wolverine 2 "Eldridge" grinder, and Skew tool rest. w/base. \$110.00

Tool Shop 8"High Speed Grinder w/ Base. \$30.00

G0555 Grizzly Band Saw w/ 6' Riser Block base and Roller Base and Blades. \$325.00
