

**Woodworker's Club Meeting**  
**Wednesday, August 21st @ 6:30 PM**  
**The Woodworker's Shop, East Manito Rd., Pekin.**

**June Meeting Notes:** President, Les Linton called the meeting of August 21st to order at 6:30PM.

**Business Meeting:** Treasurer Norm Bartlett received a CEFCU statement and has reported the sum of \$1,933.34 in the club's savings account and an additional \$49.66 in checking. And as usual, those figures reconciled with the CEFCU statement dated 8/10/2019.

**Old Business:** none.

**New Business:** club elections will take place in the September meeting instead of August. It was suggested that the club will build toys, instruments and more themes and donate the items to various charities in Peoria.

**Drawings:** 50-50 was won by Loren Baillez. The \$25 gift card for show and tell was won by Tim Doughtry. The \$35 gift card was won by Loren Baillez.

**Show and Tell:**

**Vic McDonald:** Vic made a moose sign that's also lighted. The sign is made from MDF and he used white acrylic sheet for the front. The sign is lit with an LED light strip.

**Tom Robertson:** Tom brought his mouse trap car that he nicknamed the junk mobile. Made from shop scraps including walnut for the body and secondary parts elsewhere.

**Les Linton:** Les said he started working on his car Sunday morning. While his design looked great, the car itself didn't run.

**John Goodenough:** John made the two choices visual aid. He used a variety of wood in the piece and used purple heart for the Grace Live line.

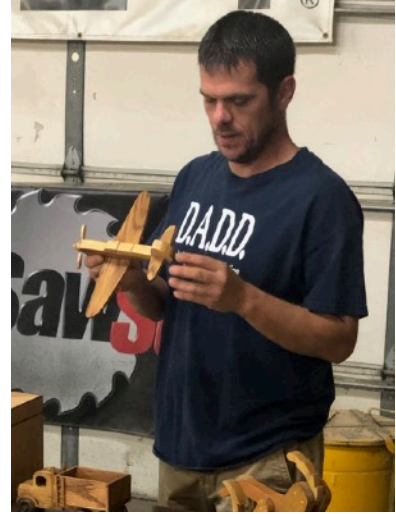

**A.J. Gatzemeyer:** A.J. brought a mouse trap car using CDs as wheels along with bearings. A.J. claimed (correctly) that his car can run for 201 ft.

**Tom Doughtry:** Tom brought a tray that started from rough sawn cherry. He reinforced the corners with splines. It's finished with minwax tung oil.

**Jason Clayton:** Jason got busy making toys for his daughter (and maybe himself?). These included an airplane made from hickory leveraging the grain of the wood to create a two tone effect.

**Dan Withrow:** Dan also participated in the mouse trap car build. He got very creative with the design using paint sticks.

**Jake Lessen:** Jake made more progress on the veneer box he brought previously. The box is basically complete with 3 inserts.

**Brian Berchtold:** Brian turned a segmented bowl, comprised of 200 pieces. He used a CNC machine to flatten the base and engrave it as well.

## Peoria Area Woodworker's Club Newsletter 2019 - August

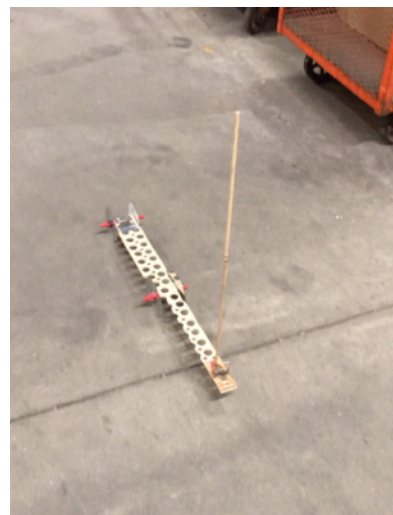

**Norm Bartlet:** Norm used his scroll saw to make a slough dog for his grandson.

**John Keen:** John brought a mouse trap car, after all the mouse trap car competition was his idea. He was luck to be able to bring it to the meeting since a neighbors dog ran away with it

### Program:

The program this month was a little bit different than usual. The club held it's first mouse trap car completion. Some members participated and everyone had a different take at making a car. After a lot of fun and laughter, A.J. Gatzemeyer won the competition by a mile! His mouse trap car seemed to want to run forever.
