

**Peoria Area Woodworker's Club Meeting**  
**Wednesday, September 15<sup>th</sup> @ 6:30**  
**The Woodworker's Shop on Manito Rd., Pekin**

Vic McDonald will be presenting the evening's program on intarsia. Expect him to begin with an overview of the basics then follow the line of questioning into patterns, tools, finishing and more.

**July 21 Meeting:** Promptly at 6:30, President, Dan Withrow, called the meeting of some 21 members plus two new members (Tim Harris and Ron Swords) to order.

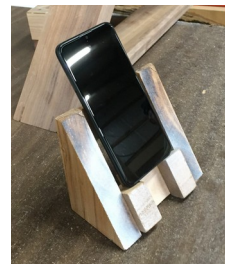

**Business Meeting:** Treasurer, Norm Bartlett reported a balance \$1,934.49 in the club's CEFCU savings account plus \$23.17 in checking. The CEFCU statement came a couple days later and those figures agreed with Norm's club records.

**New Business:** As in the past, Norm collects our annual dues of \$20 in September. Several have avoided the rush by paying early. An option beyond paying at the September meeting is to mail your remittance to **Norm Bartlett, 1017 S. Maxwell Rd., Peoria, IL 61607.**

**Drawings:** Dan Withrow won the \$35 Attendance Woodworker's Shop Gift card. Larry Truckenmiller won the \$25 Show & Tell Participation Gift Card. Jim Seelye won \$11 in the evening's 50-50 drawing.

**Show & Tell:**

**John Goodenough:** With his supervision, John lets some of his grandkids rummage through his cutoff box to make something for a "Grandpa John's Show & Tell." It's a worthwhile exercise in imagination. He made the shop cell phone holder himself from "big boy cutoffs."

**Dan Withrow:** John got involved in making some risers for his church's choir. It was quite a project worthy of more than a couple pictures...which he took the

following Sunday and sent to me. Unfortunately, near as I can tell, they are in the cloud somewhere. I can't find them.

**Vic McDonald:** Vic worked three pieces of rare lacewood plus maple, walnut, poplar, sycamore, and rough sawn cedar into this swallow on a branch intarsia piece. The scroll sawn cross is 9/16" thick walnut. Fine work, all of it.

**Jake Lesson:** Jake crafted this splayed leg side table for his new daughter's nursery. The stick in the center photo was his guide for cutting out the legs. He is building the glass ready walnut flag case for his wife's grandfather's Korean War veteran's flag. Angles...it's all about angles.

A special thanks to Larry Truckenmiller for his presentation on the basics of hot water/steam heating systems and how custom radiator covers can facilitate the distribution of the heat emanating from the radiators. Beyond the radiator covers he showed some go-to things that make it easier to work alone.

***Hope to see a good turnout tomorrow evening. Bring on those Show & Tell projects and get ready to kindle/rekindle a curiosity about intarsia.***
